Multi-Messenger

**Introducing the most Sophisticated and Cost Effective,
Computerized State-of-the-Art PC based Marketing System available today!
Increase your sales by cutting advertising costs and bringing in extra
dollars to *fatten the bottom line of your business!***

Operating on multiple telecommunication lines simultaneously, the **Multi-Messenger Auto Dialer System** contacts thousands of prospective clients daily depending upon the capacity from 2-96 lines. Multi-Messenger has the ability of delivering professional voice messages promoting your business' product or service. The **Multi-Messenger Auto Dialer System** captures a recorded or touchtone interactive response from prospective clients for immediate follow-up!

Consider the potential . . .

By leaving all the headaches to your **Multi-Messenger System**, you will be able to make over 2,400 calls per day on the basic 4-line system. (600 to 1,000 calls per line per day) With an average 1/2% response rate*; that's 14+ new potential customers showing interest in your business each and everyday. Now, with a poor closing ratio of only 10%, you could have at least one, and maybe two new clients for a fraction of the cost for what you would normally pay for three qualified leads.

(*Note: Results may vary based on offers, products, time of day calls made, industry, and area calling.)

What impact would that have on your business?

Let us look at the possibilities using a four, eight, twelve, or twenty-four line system!

Voice Messaging Systems	Calls Per Day	Response Rate 1/2%	Closing Ratios On New Customers			
			10%	20%	30%	40%
4 line	2,800 +	14	1-2	2-3	4-5	5-6
8 line	5,600 +	28	2-3	5-6	8-9	11-12
12 line	8,400 +	42	4-5	8-9	13-14	16-17
24 line	16,800 +	84	8-9	16-17	25-26	33-34

Results are possible everyday, so why pay more for less?

Leads are the lifeblood of every business and the cost of those leads will affect your bottom line tremendously! In order to fight the trend of skyrocketing advertising costs and remain profitable, most business owners are looking for cost-effective ways of getting their message out to the public. How much would it cost you to advertise your product or service to 100,000 or more prospective customers?

- **Direct Mail** \$35,000 to print/mail postcards (one time campaign)
- **Major Newspapers** \$32,000 for 2" x 2" ad (published one day a week for 1 year)
- **Radio** \$22,500 for only 60 minutes (20 off-peak ads per month for 1 year)
- **Television** \$48,000 for only 120 minutes (20 off-peak ads per month for 1 year)
- **Yellow Pages** \$3,000 per year (small 2" x 2 1/4" ad)
- **Experienced Telemarketer** \$16,000 or more per year
- **Outsourced Dialing** \$6500-8500

And these are 2000 quotations from the advertising agencies.
