

Automated Call Center

Multi-Messenger

“Multi-Messenger Fully Automated Call Center”

OVERVIEW:

MULTI-MESSENGER is designed for Organizations, Businesses, Professionals, Entrepreneurs, Fundraising, and much more!

Outbound Auto Dialing can deliver messages or get responses from members, employees, students, or customers. Plus...the Inbound Automated Attendant can answer your telephone 24 hours a day, offer up to 10 menu choices of information, take voice mail messages, and even transfer calls.

OUTBOUND AUTO DIALING

Automatically calls...

*** To make Announcements * Survey * Provide information * To Get Responses ***

MULTI-MESSENGER (with answering machine detection) can be used to make announcements or reminders by calling individuals in churches, clubs, schools, businesses, agencies, etc. It can also be used to call people to get a VOICE or TOUCHTONE response to answer questions, vote, or take a survey. MULTI-MESSENGER can be used to automatically call thousands of telephone numbers everyday. When MULTI-MESSENGER calls, it can simply leave a message or it can ask for a response. You may obtain responses from people by recording their voice answers, asking them to press keys to respond to choices, or by transferring them to a live operator. Just record your message, select which group (database) you want to call, when you want to start and stop, then let MULTI-MESSENGER go to work calling everyone! Save tremendous time and get fast results!

INBOUND AUTOMATED ATTENDANT

*** Answers phone with menu choices * Receives voice mail messages * Transfers calls**

MULTI-MESSENGER can answer your telephone 24 hours a day, with a simple message, or it can offer callers menu choices of information and receive voice mail messages. If you have 3-way calling or Centrex telephone service, callers can be connected live to other telephone numbers.
